The theme driving not only this book but Andrew's entire organization is the singular theme that attracted me to Andrew so many years ago, and that has maintained my passionate enthusiasm all the way through. In this fine work he transcends the level of passionate enthusiasm, and provides the most cogent and fruitful elaboration to date of what a Christian's engagement with the culture ought to look like. From where I am sitting, he is really making the case for what it NEEDS to look like. The church's relevance is on the line, our testimony to a fallen world is on the line, but as Andrew so eloquently demonstrates, our own calling in the culture is on the line. The day this book's message is adopted and applied is the day that we will know we are truly living faithfully, pressing all the crown rights of King Jesus, as He would have us do. I cannot recommend this book strongly enough, or with adequate desperation.
